Year 4 · Number: Money, Coins and Change

Name: _____ Date: _____

Hi! This sheet helps you add up shopping, work out change, and make amounts with different coins and notes. Grab a pencil and let's practise money maths!

Warm-up

1. How many cents are there in one dollar?

2. Add: $3 + $5 + $2

3. What coins could make 70 cents using only 50c, 20c and 10c coins? Give one way.

4. You buy a pen for $4 and pay with a $10 note. How much change do you get?

Practice

5. Aria buys an apple for $2, a muesli bar for $3 and a juice for $4. What is the total cost?

6. A packet of stickers costs $5. How much do 4 packets cost?

7. At the Avondale market, Tane buys 3 mandarins costing $2 each. He pays with a $10 note. How much change does he get?

8. Mele wants to make $5 and 80 cents. Show two different combinations of notes and coins.

9. A comic costs $6 and a bookmark costs $2. Sam buys one of each and pays with a $10 note. How much change does he receive?

10. List three different ways to make $2 using 50c, 20c and $1 coins.

Challenge

11. Ben buys 2 pies at $4 each and 3 drinks at $3 each. He pays with a $20 note. How much change does he get?

12. Hana has three $2 coins, four $1 coins and two 50c coins. Does she have enough to buy a book that costs $11.50? How much money does she have altogether?
